

Hospitality and Events Committees

A hospitality committee is a group of members from an organization that are the front line of the club. The Hospitality Committee welcomes new and old club members as they arrive and ensures they each find a comfortable place to be and, if new, introduces them to other members. The committee is responsible for promoting fellowship throughout the organization by actively listening to others and remaining positive. We are reminded that Hospitality is not only for people we have recently met but also for people we regularly see.
